

Charmaine Buffe

SCRUM MASTER | PROJECT MANAGER

PROFESSIONAL SUMMARY

Agile-focused Scrum Master and Project Manager with 10+ years of IT experience across software engineering, Agile delivery, and banking/financial systems projects. Experienced in leading cross-functional teams, facilitating Agile transformation, managing enterprise releases, and driving successful end-to-end project delivery. Strong background in stakeholder management, risk mitigation, SDLC, and production deployment support. Recognized for combining technical expertise with servant leadership to improve collaboration, delivery efficiency, and business outcomes.

CORE COMPETENCIES

- Agile & Scrum Methodologies
- IT Project Management
- Cross-Functional Team Leadership
- Risk & Stakeholder Management
- Software Development Lifecycle (SDLC)
- PHP, Java, Spring Boot, REST APIs
- QA & Test Automation (Katalon, Selenium)
- Jira, Confluence, Trello

EMPLOYMENT BACKGROUND

Scrum Master

NCS PH (formerly Yondu, Inc.) | April 2022 – Present

- Facilitate Scrum ceremonies and coach teams on Agile best practices, improving team delivery and alignment.
- Remove blockers, monitor project progress, and manage risks across multiple teams and clients.
- Prepare and deliver reports and presentations for executives and external stakeholders.
- Partner with leadership to ensure adoption of Agile practices, boosting productivity and collaboration.

Project Manager

NCS PH (formerly Yondu, Inc.) (Banking & Financial Services Project (MOCA Migration) | 2024 – 2025)

- Delivered a multi-client payment processing and migration project, coordinating IT, QA, Operations, and Relationship Managers.
- Managed requirements, UAT, deployment, and post-go-live, ensuring smooth adoption with minimal disruption.
- Developed contingency plans, prepared technical briefs and training materials, and oversaw deployment, risk management, and escalations.

Software Engineer → Senior Software Engineer

NCS PH (formerly Yondu, Inc.) | June 2016 – April 2022

- Contributed to the development of e-commerce products using GoLang and PHP, delivering scalable and high-performing online platforms.
- Designed and implemented backend programs for SMS processing and payroll systems, using Java Spring Boot for client-specific solutions.
- Built and maintained APIs for company backend processes and third-party client integrations.
- Implemented automated testing with Katalon and Selenium, improving quality and efficiency.
- Supported various enterprise and client projects, ensuring smooth delivery, technical accuracy, and compliance with requirements.
- Mentored junior developers and collaborated with cross-functional teams to improve code quality and system performance.

Mid Software Engineer

Virtualidad (Vibal Publishing) | Nov 2015 – Jun 2016
